

Supernova Consulting “Athinà” Go Digital – Career Transformation Offering

Supernova Consulting proudly presents “Athinà”, a comprehensive digital development program starting this Spring 2021. With this program, Supernova Consulting provides the opportunity to a selected group of talented business professionals to be trained in SAP business solutions and to become SAP Certified Associate Consultants.

Who is this for: “Athinà” is designed for recent graduates, unemployed or under-employed business professionals (of various disciplines) aiming for a career in Business & Technology Consulting.

Selection Process: Interested candidates need to apply first and then pass a rigorous selection process.

Basic Requirements:

- Bachelor’s degree related to the track’s discipline.
- Recent graduates, unemployed or underemployed; employees of SAP and SAP customer/partners are excluded.
- Professional experience in customer facing roles in Accounting & Finance, Information Systems, Computer Science or related field will be considered an advantage.
- Basic SAP knowledge is a preferred.
- Commitment to join SAP Ecosystem as SAP Consultant after program graduation.
- Fluent in Greek and English language is required.

Cognitive Ability:

- Basic Business Logical Reasoning
- Verbal Ability
- Numerical Ability

What this program offers: The program will cover personal and business skills, functional and technical knowledge of SAP ERP solutions such as SAP S/4HANA or SAP Business One on HANA.

What’s in it for you: through virtual classrooms, self-guided and self-paced e-learning, participant will receive a compact summary of the most important contents and immediate certification preparation and will have the possibility to address any content-related questions to the instructor.

Participants will get an opportunity to get certified as SAP Associate Consultants.

Join us for an adventure of a lifetime, where you have the chance to get SAP certified and jump-start a career in Business & Technology Consulting.

Trainings will be conducted online in English, during May and June 2021 and will take approximately 20 hours per week for SAP S/4HANA and 8 hours per week for SAP Business One.
